QUARTERLY II newsletter

Vol. I No. 2

FEBRUARY 1992

Single copy price \$3.50

We are pleased to thank the following dealers...

And you should as well. These are the market leaders who have cooperated with the CDN in producing the CDN Quarterly. After gathering pricing information on these issues for more than one year, the CDN staff worked with these experts to critique the preliminary numbers. Their willingness to give of their time has made the CDN Quarterly that much more accurate and valuable to you.

RARE DATE U.S. GOLD COINS

With this inaugural price listing of all U.S. gold coins by date, the C.D.N. is reflecting the return of the marketplace to truly rare coins. "Key" coins, and coins with low populations, are once again becoming the focus of Numismatics. When working with coins of this nature, I believe that it is wise to enlist the help of a specialist. In this way, you can benefit from experience while avoiding the pitfalls.

I have been dealing exclusively in rare date gold for over a dozen years, and my reputation in this field is unsurpassed. I carry a large selection of better-date gold coins. I would be pleased to work with you to help you build a "World Class" collection or investment portfolio.

Please call me today, so we can discuss your needs.

Always Buying! Please call me.

When Great Collections are Sold, Bowers and Merena Sells Them.

Auctions by Bowers and Merena has won more "Catalogue of the Year" awards than all of its competitors combined! Shown here are just a few of the many landmark catalogues we have produced. Also pictured is the 1861 Paquet \$20 we sold from the Norweb Collection for a record \$660,000.

Auctions by Bowers and Merena, Inc. invites you to consign your coins to our 1992 auction season. Right now we are accepting consignments for our next several sales. Contact us today!

UNEQUALED RECORD OF AUCTION SUCCESS

When you consign to Bowers and Merena, you consign to a firm with an unequalled record of auction success. Consider, for example, that of the top ten world's record auction prices for individual coins, we hold eight; including six of the top seven! Consider, also, that of the top four most valuable collections ever auctioned, we catalogued and auctioned three! The \$25 million Garrett collection for The Johns Hopkins University, the \$20 million Norweb Collection, and the \$12.4 million Eliasberg Collection of U.S. Gold Coins.

UNEQUALED WORLDWIDE CLIENTELE

The same bidders who have set world's records will be bidding on your coins, too. Our unequalled worldwide clientele of industrialists, capitalists, financiers, museums, investors, and leading numismatists will compete for your material. What we have done for so many others over the years—over \$200,000,000 worth of coins sold for over 10,000 consignors—we can do for you.

The CDN Quarterly Sequence

The Coin Dealer Newsletter is pleased to present our subscribers with still another benefit: the CDN Quarterly. One section of the Quarterly will be sent every month to our CDN subscribers (along with their CDN Monthly Supplement), and the contents of the Quarterly will rotate every three months; the following chart outlines the publishing schedule:

Quarterly 1: published Jan.; Apr.; July; Oct.; will contain Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

Quarterly 2: published Feb.; May; Aug.; Nov.; will contain Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

Quarterly 3: published Mar.; June; Sept.; Dec.; will contain Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the Quarterly will regularly contain 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

As part of your subscription package, subscribers to the CDN will now receive current pricing information on every regular issue U.S. coin; in fact, it will be like receiving four copies of an annual pricing guide, with the advantage that prices will be up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving coin issues.

The April, May & June sections of the CDN Quarterly will follow a special criteria for making changes in the price levels. Upward adjustments will be marked by a *plus* sign; in this rising market, declines are not noted, since they are almost entirely refinements made to our initial listings and *not* the result of market activity. Changes made on the *Proof* page in these issues will be marked normally, and minus signs are the result of market activity.

Using the CDN Quarterly

The CDN Quarterly, like the weekly Coin Dealer Newsletter and the CDN Monthly Supplement, reports prices based on national dealer-to-dealer buying and selling information. These wholesale prices result from our monitoring all possible transactions, and offers to buy and sell coins on a *sight-seen* basis. The coins may be certified or "raw" (uncertified), but the grading **must adhere** to the current leading standard. Prices reported also consider activity in the certified *sight-unseen* market (PCGS & NGC); "Raw" coins may be higher or lower than certified specimens due to current market conditions. The CDN Quarterly prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally be used to raise CDN Quarterly prices, and a lower Sell will normally be used to lower them.

It should be emphasized that the CDN Quarterly reports the *highest* wholesale prices seen nationally; these prices assume a *willing* and *knowledgeable* buyer. The actual buying offer received from a dealer for a rarer coin depends largely on the current availability of a customer for such a coin; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must take this into account before purchasing on behalf of inventory. Rarity will also play a key role in dealers' selling prices; a dealer may wish to receive a substantial premium for extremely scarce coins. On rare issues, the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These *wholesale* prices should not be misinterpreted by *retail* clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples of that particular range. Numismatists realize that there is wide variation in looks and attractiveness within a particular grade, and that a coin must stand on its own merits. This is the heart of the concept of *sight-seen* trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Additionally, prices will be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors which go into the final grading of a coin. Prices listed are for 'no-problem' coins.

Where no reliable pricing information is available, a tilde ("~") will be placed in the charts. An "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

Spectrum Numismatics

Dear CDN Subscriber,

Due to the current rising market in rare coins, we at Spectrum Numismatics have decided not to offer "Selected Rarities" in the Bluesheet. Rather than disappoint you with "Sorry, it's sold", we would like to personally inform you of our daily inventory, by either phone or fax. Call Greg, Curt or Dwight today to get the best deals - remember Spectrum will not be undersold!

RARE DATE U.S. GOLD COINS

With this inaugural price listing of all U.S. gold coins by date, the C.D.N. is reflecting the return of the marketplace to truly rare coins. "Key" coins, and coins with low populations, are once again becoming the focus of Numismatics. When working with coins of this nature, I believe that it is wise to enlist the help of a specialist. In this way, you can benefit from experience while avoiding the pitfalls.

I have been dealing exclusively in rare date gold for over a dozen years, and my reputation in this field is unsurpassed. I carry a large selection of better-date gold coins. I would be pleased to work with you to help you build a "World Class" collection or investment portfolio.

Please call me today, so we can discuss your needs.

Always Buying! Please call me.

When Great Collections are Sold, Bowers and Merena Sells Them.

Auctions by Bowers and Merena has won more "Catalogue of the Year" awards than all of its competitors combined! Shown here are just a few of the many landmark catalogues we have produced. Also pictured is the 1787 Brasher Doubloon we sold from the Garrett Collection for a record-breaking \$725,000.

Auctions by Bowers and Merena, Inc. invites you to consign your coins to our 1992 auction season. Right now we are accepting consignments for our next several sales. Contact us today!

UNEQUALED RECORD OF AUCTION SUCCESS

When you consign to Bowers and Merena, you consign to a firm with an unequalled record of auction success. Consider, for example, that of the top ten world's record auction prices for individual coins, we hold eight, including six of the top seven! Consider, also, that of the top four most valuable collections ever auctioned, we catalogued and auctioned three! The \$25 million Garrett collection for The Johns Hopkins University, the \$20 million Norweb Collection, and the \$12.4 million Eliasberg Collection of U.S. Gold Coins.

UNEQUALED WORLDWIDE CLIENTELE

The same bidders who have set world's records will be bidding on your coins, too. Our unequalled worldwide clientele of industrialists, capitalists, financiers, museums, investors, and leading numismatists will compete for your material. What we have done for so many others over the years—over \$200,000,000 worth of coins sold for over 10,000 consignors—we can do for you.

The CDN Quarterly Sequence

The CDN Quarterly is part of the total CDN subscription package. One section of the Quarterly is sent every month to our CDN subscribers (along with their CDN Monthly Supplement), and the contents of the Quarterly will rotate every three months. The following chart outlines the publishing schedule:

Quarterly 1: published Jan.; Apr.; July; Oct.; will contain Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

Quarterly 2: published Feb.; May; Aug.; Nov.; will contain Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

Quarterly 3: published Mar.; June; Sept.; Dec.; will contain Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the Quarterly will regularly contain 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly issues included in your subscription, subscribers to the CDN now receive current pricing information on every regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices will be up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

Using the CDN Quarterly

CDN publications report prices based on national dealer-to-dealer buying and selling information. These wholesale prices result from our monitoring all possible sight-seen transactions and offers to buy and sell coins. The coins may be certified or "raw", but the grading must adhere to the current leading standard. Prices also consider activity in the certified sight-unseen market (PCGS & NGC). CDN Quarterly prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally be used to raise CDN Quarterly prices, and a lower Sell will normally be used to lower them.

The CDN Quarterly reports the highest wholesale prices seen nationally, which assume a willing and knowledgeable buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer for such a coin; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These wholesale prices should not be misinterpreted by retail clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of sight-seen trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

When Great Collections are Sold, Bowers and Merena Sells Them.

Auctions by Bowers and Merena has won more "Catalogue of the Year" awards than all of its competitors combined! Shown here are just a few of the many landmark catalogues we have produced. Also pictured is the 1787 Brasher Doubloon we sold from the Garrett Collection for a record-breaking \$725,000.

Auctions by Bowers and Merena, Inc. invites you to consign your coins to our 1992 auction season. Right now we are accepting consignments for our next several sales. Contact us today!

UNEQUALED RECORD OF AUCTION SUCCESS

When you consign to Bowers and Merena, you consign to a firm with an unequalled record of auction success. Consider, for example, that of the top ten world's record auction prices for individual coins, we hold eight; including six of the top seven! Consider, also, that of the top four most valuable collections ever auctioned, we catalogued and auctioned three! The \$25 million Garrett collection for The Johns Hopkins University, the \$20 million Norweb Collection, and the \$12.4 million Eliasberg Collection of U.S. Gold Coins.

UNEQUALED WORLDWIDE CLIENTELE

The same bidders who have set world's records will be bidding on your coins, too. Our unequalled worldwide clientele of industrialists, capitalists, financiers, museums, investors, and leading numismatists will compete for your material. What we have done for so many others over the years—over \$200,000,000 worth of coins sold for over 10,000 consignors—we can do for you.

The CDN Quarterly Sequence

The CDN Quarterly is part of the total CDN subscription package. One section of the **Quarterly** is sent every month to our CDN subscribers (along with their **CDN Monthly Supplement**), and the contents of the **Quarterly** will rotate every three months. The following chart outlines the publishing schedule:

Quarterly 1: published Jan.; Apr.; July; Oct.; will contain Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

Quarterly 2: published Feb.; May; Aug.; Nov.; will contain Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

Quarterly 3: published Mar.; June; Sept.; Dec.; will contain Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the **Quarterly** will regularly contain 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly issues included in your subscription, subscribers to the CDN now receive **current** pricing information on every regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices will be up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

Using the CDN Quarterly

CDN publications report prices based on national **dealer-to-dealer** buying and selling information. These **wholesale** prices result from our monitoring all possible **sight-seen** transactions and offers to buy and sell coins. The coins may be certified or "raw", but the grading **must** adhere to the current leading standard. Prices also consider activity in the certified **sight-unseen** market (PCGS & NGC). CDN **Quarterly** prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally be used to raise CDN **Quarterly** prices, and a lower Sell will normally be used to lower them.

The CDN **Quarterly** reports the **highest wholesale** prices seen nationally, which assume a **willing and knowledgeable** buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer for such a coin; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These **wholesale** prices should not be misinterpreted by **retail** clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of **sight-seen** trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

When Great Collections are Sold, Bowers and Merena Sells Them.

Auctions by Bowers and Merena has won more "Catalogue of the Year" awards than all of its competitors combined! Shown here are just a few of the many landmark catalogues we have produced. Also pictured is the 1787 Brasher Doubloon we sold from the Garrett Collection for a record-breaking \$725,000.

Auctions by Bowers and Merena, Inc. invites you to consign your coins to our 1992 auction season. Right now we are accepting consignments for our next several sales. Contact us today!

UNEQUALED RECORD OF AUCTION SUCCESS

When you consign to Bowers and Merena, you consign to a firm with an unequalled record of auction success. Consider, for example, that of the top ten world's record auction prices for individual coins, we hold eight; including six of the top seven! Consider, also, that of the top four most valuable collections ever auctioned, we catalogued and auctioned three! The \$25 million Garrett collection for The Johns Hopkins University, the \$20 million Norweb Collection, and the \$12.4 million Eliasberg Collection of U.S. Gold Coins.

UNEQUALED WORLDWIDE CLIENTELE

The same bidders who have set world's records will be bidding on your coins, too. Our unequalled worldwide clientele of industrialists, capitalists, financiers, museums, investors, and leading numismatists will compete for your material. What we have done for so many others over the years—over \$200,000,000 worth of coins sold for over 10,000 consignors—we can do for you.

SUPERIOR

More than just a name...
It's our commitment to excellence.

- We consistently realize the highest prices.
- We produce the finest catalogs in the business.
- We have the most competitive commission rates.
- We serve the finest clientele.
- We have the best numismatic staff.

NOW ACCEPTING CONSIGNMENTS

We are now seeking quality United States coins
for our February, 1993 pre-Long Beach auction.

Dateline: Orlando, August 10th, 7:33 P.M.

Chicago-area collector Robert Deland had responded to one of our ads and contacted us about auctioning a coin he possessed. He owned an 1894-S Dime, a legendary rarity, and chose Superior to give him the best publicity and realize the highest price. We sold this coin for \$165,000 at our auction prior to the ANA Convention.

Spectrum Numismatics

Dear CDN Subscriber,

Due to the current rising market in rare coins, we at Spectrum Numismatics have decided not to offer "Selected Rarities" in the Bluesheet. Rather than disappoint you with "Sorry, it's sold", we would like to personally inform you of our daily inventory, by either phone or fax. Call Greg, Curt or Dwight today to get the best deals - remember Spectrum will not be undersold!
